GENERAL DEPARTMENT.

Bombay Castle, 7th May 1913.

READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the administration of local boards in the Bombay Presidency during the year 1911-12.

RESOLUTION.—In the year under review the number of district and
Number of boards. táluka local boards remained unchanged.

2. The increase of 208,000 in the figures of population is due to the
Area and population. final revision of the totals by the Census office, those adopted last year being only provisional.

3. In the Panch Maháls district the alteration in the constitution of
Constitution. the district local board, whereby each Assistan and District Deputy Collector being *ex-officio* member of a táluka local board in the district was appointed *ex-officio* member of the district local board, was brought into force from the 1st April 1912. There was an increase of two members (one elected and one nominated) on the Táluka Local Board of A'nand due to the division of the táluka into seven groups instead of six in consequence of the abolition of the Od municipality. In the districts of Dhárwár, Kánara, Kolába and Ratnágiri the Huzúr Deputy Collectors were nominated members of the district local boards in virtue of their office. The decrease in the number both of elected and of nominated members of the táluka local boards of Indápur, Sirur, Sásvad and Talegaon-Dábhade was due to the fact that the municipalities of those places have lost the privilege of electing representatives to the táluka boards owing to their figures of population having, according to the new census, fallen below the minimum of 5,000, in consequence of which it was necessary to reduce the number of nominated members also in order to preserve the due proportion between nominated and elected members. The term of office of the local boards in the Karáchi district had to be extended by six months as the preliminaries prescribed by law had not been complied with in time to allow of the holding of fresh elections on the proper date. The Dhárwár Táluka Board, which was superseded in 1910, continued under supersession during the year under review.

4. The triennial period of the boards in the Poona and Kaira districts having expired, they were reconstituted in the year under review. In the Poona district the interest evinced in the elections was unequal, the contest being keen only in four out of the eight tálukas.

5. The total number of meetings held during the year rose from 1,304 to
Meetings. 1,320. There was an increase of 25, however, in the number of those which had to be adjourned for want of a quorum. The rule regarding half-yearly meetings was complied with by all the district boards, but seven táluka boards in the Northern Division, twelve in the Central Division, five in the Southern Division and one in Sind failed to hold the minimum number of four meetings during the year. The average percentage of members attending the meetings in the Northern, Central and Southern Divisions and in Sind was respectively 58, 53·98, 52·3 and 57. In the Central and Southern Divisions last year's averages have been maintained; in the Northern Division there is a perceptible decrease; and in Sind there is a satisfactory increase.

6. The aggregate income of the boards rose from 68 lákhs to 68⅓ lákhs.

The following statement compares the receipts under the principal heads of revenue with those of the preceding year :—

	1911-12.	1910-11.	Increase.	Decrease.
		(Rupees in thousands.)		
Land Revenue	1,98	3,25	...	1,27
Provincial Rates	28,38	30,86	...	2,48
Interest	17	16	1	...
Police	1,68	1,23½	44½	...
Education	19,64	17 38	2,26	...
Medical	1,42	1,06	36	...
Scientific and other Minor Departments ...	88	60	28	...
Miscellaneous	98	1,58	...	60
Civil Works	13,19	12,72	47	...

7. The decrease under the head "Land Revenue" occurred entirely in the Northern Division, and was due to smaller receipts from sand, quarry and lime stone in the Thána district owing to a falling off in the Bombay demand, and also to the non-appearance in the accounts of the year under review of previous years' arrears which formed an abnormal item in last year's figures. There was also a very large decrease in the receipts under the head "Provincial Rates" due principally to the suspensions and remissions of land-revenue granted in consequence of the unfavourable character of the season.

The already substantial increases recorded last year under the heads "Education," "Medical," "Scientific and other Minor Departments," and "Civil Works" were still further added to during the year under review. The largest increase was under the head "Education," due chiefly to the liberal grants made by Government for opening new schools and improving the pay of teachers in primary schools and to the fee receipts derived from the new schools. The contributions made by Government under other heads were chiefly towards the construction and maintenance of medical and veterinary dispensaries and the improvement of village water-supply and communications. The noticeable increase under the head "Police" is due to the rise in receipts under the Cattle Trespass Act.

8. The incidence of income per head of population rose from 5 annas 2 pies to 6 annas 4 pies, while there was no variation in the incidence of taxation.

9. The total expenditure of the boards was 73½ lákhs as against 68½ lákhs in the preceding year.

The following statement exhibits the distribution of the expenditure under the several heads as compared with that of the previous year :—

	1911-12.	1910-11.	Increase.	Decrease.
		(Rupees in thousands.)		
Administration	1,51½	1,55½	...	4
Education	27,36	25,20	2,16	...
Medical	4,31	4,32	...	1
Scientific and other Minor Departments ...	1,20½	1,25	...	4½
Stationery and Printing	18	18½	...	½
Miscellaneous	1,01	1,20	...	19
Civil Works	37,18	33,53	3,65	...
Debt	45½	1,01	..	55½
Interest on Debt	3	5	...	2

10. The most important variations in the above figures are noted below :—

Education.—The expenditure on education rose from Rs. 25,20,000 to Rs. 27,36,000. The increase was shared by all the Divisions of the Presidency except the Southern Division where there was a slight decrease. In the

latter Division, however, the percentage of this expenditure on the total disbursements rose from 43·3 to 44·3 per cent. The increase in the total expenditure of the Presidency under this head was mainly due to the further sums devoted to the improvement of the pay of teachers in primary schools, the opening of new schools, the entertainment of additional teachers, and grants to educational institutions. In the Southern Division the falling off in expenditure is more apparent than real, as the figures for 1910-11 were unusually high in consequence of payments made in that year on account of the balances of the enhanced rates of pay of teachers due in the previous year in the Dhárwár and Bijápur districts and of the grant of grain compensation to school masters in the latter district and in Kánara. Fifty-five new schools for boys and six schools for girls were opened in the Southern Division. In Dhárwár 32 indigenous schools and in Belgaum two rural girls' schools had to be closed for want of attendance. Female education continued to receive encouragement, but the want of trained female teachers on the one hand and the apathy of the rural population on the other are the main obstacles to more rapid progress in this direction. Much attention was paid in the Southern Division to the education of the depressed classes and the aboriginal hill tribes, especially in Dhárwár, Bijápur and Belgaum. The total number of boys of these classes attending school in the abovenamed districts rose from 715 to 851. A new school for the education of the depressed classes has been started in Bijápur, at which pupils belonging to wild tribes are given small stipends for attendance. Industrial education and manual training also received a fair share of the attention of the district boards of Belgaum, Bijápur, Ratnágiri and Kánara. In the Central Division the opening of 20 new schools in Sátára and 38 in Sholápur contributed to the increase in educational expenditure.

Civil Works.—The expenditure under this head shows a net increase of Rs. 3,65,000 on the preceding year's outlay of Rs. 33,53,000. In the Northern and Central Divisions there were large increases, while in the Southern Division and Sind there were slight decreases. The expenditure under this head for the whole Presidency represents 50·8 per cent. of the entire expenditure of the boards against 49 per cent. in the preceding year. The following statement compares the changes under the various sub-heads with those of the preceding year :—

		1911-12.	1910-11.	Increase.	Decrease.
			(Rupees in thousands.)		
Buildings	Original	3,08	2,75	33	...
	Repairs	1,11	1,11	...	...
Communication	Original	9,72	7,27	2,45	...
	Repairs	13,65½	13,63	2½	...
Water-supply and water-works.	Original	2,34	2,25	9	...
	Repairs	1,56	1,27	29	...
Other works of improvement		14½	25	...	10½
Establishment and Contingencies ...		3,18	2,80	38	...
Tools and Plant		48½	48	½	...
Staging Bungalows		15	16	...	1
Arboriculture		79½	67	12½	...
Miscellaneous		14½	13	1½	...

The major portion of the outlay on "Civil Works" was as usual devoted to the construction and repairs of roads, bridges, etc. Among the works of construction carried out during the year were many school-houses, and a considerable number of dharamshálas and medical and veterinary dispensaries. The buildings of the Ratnágiri School of Industry were approaching completion at the close of the year under review. The increase under the head "Arboriculture" is largely shared by the Central and Northern Divisions, though in the latter division progress in tree-planting was checked by the failure of the monsoon. In Sind 101 additional miles of road were planted with trees.

The expenditure on water-supply and water-works showed an increase of Rs. 38,000. In the Northern Division the boards spent Rs. 1,82,000 on the improvement of village water-supply, the construction of new wells and tanks, and the execution of repairs to old ones, thus affording a certain degree of relief in places where quasi-famine conditions were prevalent. In the Central Division increased expenditure was incurred in several districts on the improvement of water-supply. In the three above-ghaut districts of Belgaum, Dhárwár and Bijápur in the Southern Division 52 new wells were constructed and 135 old ones repaired. The District Local Board of Bijápur paid Rs. 30,000 to make up its promised contribution of half a lákh of rupees to the Bijápur water-works, and the District Local Board of Kolába contributed Rs. 1,500 to the Alibág water-works. In Sind the expenditure under the head "Original Works" was wholly incurred on wells, of which 57 were constructed during the year. The Governor in Council is glad to note the increased development of this branch of expenditure. There is no direction in which the boards can more usefully spend the funds at their disposal than in promoting the health and comfort of the rural population by the improvement and extension of their water-supply.

11. The table appended to this Resolution exhibits the opening and closing balances of the boards of the different districts in each Division. The closing balances of the boards in the Presidency amounted to Rs. 26$\frac{1}{3}$ lákhs against Rs. 29$\frac{1}{3}$ lakhs in the preceding year. The balances were generally in excess of the prescribed minima. The total closing balances of the boards in the Southern Division and in Sind increased from Rs. 5,76,000 and Rs. 5,59,000 to Rs. 6,82,000 and Rs. 6,12,000 respectively. That for Sind represents more than eleven times the total prescribed minimum. In the Northern and Central Divisions the total closing balances, though still much in excess of the prescribed minima (Rs. 1,99,000 and Rs. 2,39,600 respectively), have been reduced by Rs. 3,21,000 and Rs. 20,000 respectively. The reduction by over two lákhs of rupees of the inordinately large closing balance for 1910-11 of the Kaira District Board and the overdrawal by the Ahmedabad District Board of its balance in the Government treasury to the extent of Rs. 38,000 during the year under review chiefly contributed to the great reduction in the closing balance of the Northern Division. In every Division a considerable proportion of these unduly inflated balances belongs to the Educational Fund. As regards the remaining portion it is reported that the scarcity of labour generally and, in some districts, the interruption of work by plague and cholera, were in many cases responsible for the failure to incur expenditure up to the desired limit. In this connection the attention of the boards concerned should be invited to the concluding portion of paragraph 11 of Government Resolution No. 2794, dated the 1st May 1912, and the following remarks of the Commissioner, Northern Division :—

> "It appears that many works budgetted for could not be carried out owing to a scarcity of labour, although labour might have been expected to be abundant in view of the seasonal conditions. The inference is that the local boards offer an insufficient wage on their works and that they are therefore unable to compete with other large employers when work is plentiful."

The Governor in Council trusts that in the current year every effort will be made for the utilization of such funds as are freely available. It cannot be regarded as a satisfactory feature of local fund administration in the Presidency that a capital of 20 lákhs should remain unprofitably locked up in the Government treasuries.

12. Works committees have been formed in the majority of the districts of the Northern and Southern Divisions, and their members are reported to have evinced a fair amount of interest in the supervision of works. In the Central Division táluka works committees are in existence everywhere except in the Sátára district, and all the district boards are reported to have nominated similar committees except those of Poona, West Khándesh and Sholápur. In the last two districts the need for works committees was not felt, as in West Khándesh all works are carried out or controlled by the Executive Engineer, while in Sholápur the duty of inspecting works in progress has been assigned to members of the district board without the formal appointment of a works committee. In Poona no member of the district board was found willing to serve on a works committee and in East Khándesh the district board committee failed to meet

at all during the year. Progress in respect of the appointment of works committees in Sind has not been reported. Rules on the lines of those adopted in East Khándesh defining the duties of works committees were framed in Belgaum and Dhárwár during the year.

13. The general administration of the local boards was on the whole satisfactory. In the Karáchi, Lárkána and Upper Sind Frontier districts the zamindárs are reported to have taken a fair amount of interest in local fund work and in the first-named district a seat either on a táluka or on the district local board is becoming more and more an object of competition amongst the better class of landholders. It is a healthy symptom that increasing value should be attached to the position of member of a local board and that this should be accompanied by practical interest in the details of the administration. His Excellency the Governor in Council would be glad to observe evidence of these tendencies asserting themselves more widely in every district. In the Presidency proper the unofficial members, with a few notable exceptions, manifest little interest in the affairs of the boards, with the result that whatever success is achieved in the administration of local fund affairs is generally attributable to the energy and attention expended on the work by the district and táluka officers. The attitude of the public is on the whole one of apathy. While deploring this indifference on the part of the unofficial members of the boards and the public generally, the Governor in Council is constrained to point out that to a certain extent the remedy for this state of affairs lies in the hands of the official members. Whole-hearted and systematic efforts to arouse the interest and enlist the active co-operation of the unofficial element on the boards will not, he is convinced, fail in the end to meet with the desired response. Success in this direction depends especially on the attitude of the official presidents. They have many opportunities of encouraging, without serious prejudice to the efficient transaction of business, independent expressions of opinion on the part of non-official members, intiative in proposing expedients to meet local requirements, and activity in supervising local works and local institutions. They can effect this not only by their personal example but also by making it widely understood that the conscientious performance of these public duties is much desired and highly appreciated by Government. His Excellency in Council trusts that these opportunities will be fully utilized. That there are signs of popular interest and support being aroused on behalf of local fund administration is evident from the following observations by the Collector of Broach, who writes :—

"The collections were much larger than could have been anticipated in such a scarcity year and this is mainly due to the increasing public spirit of the inhabitants and to the fact that local affairs are now published abroad and all criticisms and suggestions invited, while I take every opportunity of reminding villagers that their own members must press their desires and claims upon the boards."

14. The extension and improvement of communications are greatly required in many of the districts of the Presidency. But the outlay on these objects of expenditure already absorbs a very large portion of the revenues of the boards. The Commissioner, Northern Division, urges that relief in this respect should be afforded to the boards by the provincialization of many of the more important roads at present maintained by them. Government have already assisted district local boards to a considerable degree by taking over a number of roads which serve more than one district, and even some roads which do not as a matter of fact comply with this condition, and it is their intention to proceed steadily with this policy, as funds permit, until all the more important roads which carry the heaviest traffic have been provincialized. But this process must necessarily be gradual. In the meanwhile the local boards might with advantage consider the advisability of following the example of the East Khándesh Board who have recently borrowed five lákhs of rupees for the construction of new roads, and of thus utilizing their credit, where a suitable opportunity occurs and with due regard to prudence and economy, for the raising of loans for road extensions and other works of public utility. Another direction in which some measure of relief in the matter of the maintenance of communications may perhaps be anticipated is indicated by the report from the Southern Division that in certain

districts, as a result of the revival of the old system of getting petty village works done by voluntary local labour, a good deal of road work was performed by that agency. This is a satisfactory sign since it is highly desirable that these small communities should learn to rely upon their own resources for the minor conveniences of which they alone reap the benefit, rather than to expect everything to be provided from funds assigned primarily for purposes of general advantage to a wider public. Government trust that by efforts to give this tendency a more extensive scope throughout the Presidency local boards may be relieved of a considerable burden of expenditure of a somewhat questionable character and may thus be in a position to set free funds which can more usefully and with much greater propriety be devoted to the execution and maintenance of works intended to serve the convenience of the general public of the district.

15. The Governor in Council has recently passed orders prescribing the simplification and reduction in volume of the tabular statements of income and expenditure appended to this review. These orders will come into force in connection with the reports for the year 1912-13.

16. Copies of the Resolution should be submitted to the Secretary of State and the Government of India and should be forwarded to all Commissioners and Collectors and to the other officers and Departments concerned.

J. L. RIEU,
Secretary to Government.

(1) Rs. 1,600 which had been advanced by the District Local Board to the several Sanitary Committees were deducted from the District total instead of from the balance at the disposal of the District Local Board. The whole amount has now been recovered and credited to the District Local Board. Therefore the amount of debt account has been shewn short by Rs. 1,600 which has been deducted from the opening balance of the District Local Board.
